LARGE SPECIMEN TREES NURSERY GROWN - TRANSPLANTED

These trees are all grown far apart in the nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving. The caliper measurement is taken at a point twelve (12) inches above the ground and indicated as diameter ("). All material listed in this section is dug with a large ball of earth, and prices quoted are for the trees dug at the nursery (B&B) but not planted. Planting charge varies from 50% to 75% additional, depending upon conditions at point of planting, accessibility, distance, etc. Minimum planting charge on large tree orders is \$15.00.
